

# NEXTflex™ ChIP-seq Barcodes

## 产品特点:

- 6 nt index contained within adapter sequence
- Up to 48 multiplexed samples (up to 384 reactions per kit)
- Compatible with mRNA-Seq
- Considerably reduce your per-sample sequencing cost by barcoded multiplexing
- Increase your sequencing scale by pooling 100s of samples on a single flow cell
- Compatible with Illumina Next-Generation Sequencing platforms (GAIIx, HiSeq and MiSeq)

## 产品介绍:

The NEXTflex™ ChIP-Seq Barcodes are adapters containing indexed sequences that offer an improved multiplexing workflow and flexible setup. These barcodes are available in sets of 6, 12, 24 and 48 unique adapters. The ability to pool samples in an efficient way significantly decreases hands on time while providing robust data quality. These barcodes can be used with single, paired-end and multiplex reads. These adapters are compatible with the NEXTflex ChIP-Seq workflow.

Do you want to index 96 samples? We also offer the NEXTflex-96™ ChIP-Seq Barcode kits, which contain 96 - 8 nt index barcodes.

For larger volume requirements, customized and bulk packaging is available. Please contact [info@sbsbio.com](mailto:info@sbsbio.com) for further information

Catalog#	Product Name	Quantity
514120	NEXTflex™ ChIP-seq Barcodes - 6	48 rxns
514121	NEXTflex™ ChIP-seq Barcodes - 12	96 rxns
514122	NEXTflex™ ChIP-seq Barcodes - 24	192 rxns
514123	NEXTflex™ ChIP-seq Barcodes - 48	384 rxns
