

NEXTflex™ DNA Barcode Blockers for SeqCap

产品特点:

- Multiplex Compatible –24 barcodes and barcode blockers available
- Compatible with NEXTflex™ DNA Barcodes
- Validated in combination with Roche NimbleGen’s SeqCap EZ library target capture kits and Illumina sequencing
- Simplifies and reduces the cost of NimbleGen’s SeqCap EZ library target capture

产品描述:

The NEXTflex™ DNA Barcode Blockers for SeqCap are designed for use with the NEXTflex™ DNA Barcodes. Both are compatible with Roche NimbleGen’s SeqCap EZ library target capture systems. The NEXTflex DNA Barcode Blockers for SeqCap are available in sets of 6, 12 or 24 blocking oligos.

Alternatively, a complete library, barcode and blocker solution is available. The NEXTflex™ Pre-Capture Combo Kit (NimbleGen SeqCap v3) includes NEXTflex DNA library prep, NEXTflex DNA barcodes for multiplexing and barcode blockers.

For larger volume requirements, customized and bulk packaging is available. Please contact info@sbsbio.com for further information.

Catalog#	Product Name	Quantity
514131	NEXTflex™ DNA Barcode Blockers – 6 for SeqCap v3	48 rxns
514132	NEXTflex™ DNA Barcode Blockers – 12 for SeqCap v3	96 rxns
514133	NEXTflex™ DNA Barcode Blockers – 24 for SeqCap v3	192 rxns
